Important Notes:

- **Approval is NOT guaranteed.** Both platforms manually review supplier applications and decide whether to approve them.
- Approval depends on factors like business verification, quality of the tour listing, and platform requirements.
- The overall process can take time, and the speed also depends on communication.
- If documents or tour details are delayed from your end, the process will also take longer. Your faster responses and complete information help speed up verification.
- For any of the platform we need minimum 25 days to complete the whole process.
